

IES ACQUIRES WA BASED BITUMEN TRANSPORT COMPANY

IES is pleased to announce the acquisition of SAFAS Transport. SAFAS is a Perth based bitumen transport company servicing the road making and repair industry throughout Western Australia.

SAFAS is the largest independent transporter of Bitumen and Bituminous products in WA, its culture in customer service, attention to detail and presentation of equipment mirrors that of Cootes hence its attractiveness to IES. The welcomed addition of this business together with Cootes' current business strengthens IES's activities in WA.

SAFAS will operate independently of Cootes but where appropriate integration of IT and back office systems and processes will occur.

IES welcomes Greg Grier (Manager of SAFAS) and his staff to the IES Group of Companies.
